

CPSIA Certification of Compliance

Pursuant to the requirements of "Consumer Products Safety Improvement Act of 2008" (CPSIA) Title I, Sections 101-108, Bical is pleased to provide to provide the following information related to the manufacture of Bical Grippers.

Bical certifies that all of our products manufactured prior to February 10, 2009 adhere to the required 600ppm lead levels in coating & substrate H.R. 4040, section 101 of the CPSIA laws passed in 2008. All products manufactured after February 10, 2009 will follow the set law of testing for compliance of 600ppm up until August 10, 2009, at which time testing will conform to the required 300ppm lead levels. All third party testing for product manufactured prior to February 10, 2009 and subsequent has and will be executed by an ILAC – I.S.O certified third party company and subsequent test reports remain on file at corporate offices.

The Bical Company maintains a compliance testing program on which this certification of compliance is based for products included in your shipment. The items tested represent the Bical Grippers product line.

If you have any questions regarding the testing program or require further assistance, please contact Michelle McLeary, Operations Manager, Spree Fashions Inc., #23-7228 Winston Street, Burnaby, BC, Canada, V5A 2G9 – 877.421.1295 / customerservice@spreefashions.com
